Staffed by graduates of ALA-accredited master’s degree programs in library and information science, the library is committed to the development of lifelong learning skills and information literacy in all JWU graduates. Its key mission is enhancing the pedagogical, professional and scholarly achievements of JWU faculty. During operating hours, staff is available to offer assistance on how to effectively use library resources and find the most pertinent information for assignments.

An important aspect of the library is the access it provides to resources, services and facilities shared by the Higher Education Library Information Network (HELIN), a southern New England consortium of academic libraries.

The main Johnson & Wales University library facility in Providence occupies the first two floors of The Yena Center at 111 Dorrance St. on the Downcity Campus. It houses the largest of the university library network’s book, journal and AV resource collections as well as the administrative offices of the dean of university libraries. Other resources include access to numerous research databases, Mac and Windows computer workstations, wide-bed scanners, group study rooms with LED monitors, private study carrels, soft seating, an electronic classroom, wireless internet connectivity throughout the facility, and the Wildcat Café. During the academic year the library is open seven days a week with extended hours during exam periods.

Library collections and services at the Harborside Campus are located in The Friedman Center at 321 Harborside Blvd., and primarily support the curricula of the College of Culinary Arts, with resources also available for graduate studies in business and education. Like its Downcity Campus counterpart, this facility provides access to research databases, computer workstations, group study rooms with LED monitors, and wireless internet connectivity, as well as numerous books, periodicals and AV resources. In addition, the library holds an important collection of restaurant menus from around the world. Many of these menus are now available online in the JWU Scholars Archive, an open-access digital repository of faculty publications, student scholarship and image files unique to the university.

Culinary Arts Museum at Johnson & Wales University

As an extension of JWU Library, the Culinary Arts Museum on the Harborside Campus, stores and exhibits hundreds of historic artifacts associated with the fields of culinary arts, food studies and hospitality. It serves as a widely recognized educational resource for Johnson & Wales University, food scholars, and practitioners within the food service industry. Its primary objective is to preserve and interpret the broad culinary and hospitality heritage addressed by the university curriculum, showcasing its substantial historic collections as well the work of students, faculty, alumni and distinguished visiting chefs. Through exhibitions and special events, the museum strives to interpret the evolution of food preparation and presentation, development of culinary equipment and technology, diverse menus offered, and places where people dine.

Students and researchers can access digitized images of museum collection objects, and identify book, journal and artifact holdings through the museum’s online catalog. The museum also offers ample seating and bookable presentation space for student use, with Wi-Fi connectivity throughout.
