

JWU Admissions

Johnson & Wales University's admissions process goes beyond looking for academically accomplished students. JWU encourages interaction such as visiting campus, attending a virtual visit session, being in contact with our office, or speaking with a member of our community, such as an Admissions Representative, Professor, or Coach.

The university seeks to attract and retain highly motivated and demonstrably capable students. Students' motivation and interest in succeeding in their chosen careers are given consideration along with their academic achievements.
