

Risk Management (RMGT) Courses

RMGT2001 Enterprise Risk Management

This course focuses on the aspects of enterprise risk management (ERM) in business, including the methods and processes used by organizations to manage risks and seize opportunities related to the achievement of their objectives. The course provides a framework for the identification, assessment, monitoring and mitigation of risk as it relates to the business enterprise including identification and mitigation of strategic, marketing, financial, supply chain, information technology, health/safety risks and corporate governance.

Offered at Charlotte, Online, Providence

3 Semester Credits

RMGT3001 Emergency Planning and Business Continuity

This is a survey course of the practical implications of emergency planning with a particular focus on business continuity during a crisis situation. The focus of this course is applied and case-study rich, and provides students with a detailed understanding of the various considerations in emergency and continuity situations frequently encountered during a crisis.

Prerequisite(s): BUS1001 or MGMT1001.

Offered at Online, Providence

3 Semester Credits

RMGT4010 Risk Analysis and Loss Prevention

This course focuses on risk management and loss prevention. Risk countermeasures and their pros and cons are addressed. Students are provided with a systematic approach to logical decision-making about the allocation of scarce security resources. This course describes the risk management methodology as a specific process, theory or procedure for determining assets, vulnerabilities and threats, and how security professionals can protect them.

Prerequisite(s): RMGT2001.
