

Student-Alumni Relations

Alumni Relations provides opportunities for students to network with alumni through the **Student Alumni Association (SAA)**. The purpose of SAA is to engage current students as *"students today and Wildcats forever."* This is accomplished through specialized programming and activities designed to foster pride, spirit and traditions, while educating students about philanthropy and alumni involvement.

Alumni Relations also facilitates campus initiatives and programs in which students can interact with alumni and build their professional networks.

For more information and to join the Student Alumni Association, please email the Alumni Relations office at JWU Alumni (contact@alumni.jwu.edu).
