

3+2 B.S. Psychology/M.S. Clinical Mental Health Counseling

The College of Arts & Sciences offers students an opportunity to earn both their undergraduate and graduate degrees through its 3+2 B.S. Psychology/ M.S. Clinical Mental Health Counseling program. This program enables qualified students to earn, in a continuous plan of study, both a B.S. in Psychology and an M.S. in Clinical Mental Health Counseling in five years.

Qualified students are able to complete 10 Core Counseling graduate courses that will count towards their undergraduate Psychology degree.

Requirements

Eligible undergraduate students who would like to pursue a 3+2 B.S. Psychology/M.S. Clinical Mental Health Counseling degree should apply directly to the 3+2 program by the end of their first year to take maximum advantage of this accelerated option. Students who qualify for the 3+2 degree will need to complete a formal application with Graduate Admissions by no later than the start of their junior year. Students must satisfy separate admission requirements for both undergraduate and graduate programs. Admission to the undergraduate program does not guarantee admission to the graduate program.

The M.S. degree in Clinical Mental Health Counseling is run on a cohort model. Students who are accepted to the program will enter the summer after their junior year.

Qualified students who have already been accepted to the 3+2 B.S. Psychology/M.S. Clinical Mental Health Counseling program will also need to complete a formal application with Graduate Admissions. When submitting the formal application to Graduate Admissions, the following must be submitted or completed:

1. A completed application for graduate admission, marking the M.S. Clinical Mental Health Counseling box under the Special Programs Selection section
2. Statement of Purpose: an essay explaining your motivation, aptitude and goals related to graduate-level study
3. Three letters of recommendation. Recommendations should be from individuals qualified to attest to the applicant's potential for success at the graduate level of study. A personal reference form may be substituted for the recommendation letters
4. Current résumé or CV
5. Completion of these undergraduate courses with a grade of C or better: General Psychology, Abnormal Psychology, and Statistics or Research Methods (JWU courses: PSYC1001 Introductory Psychology, PSYC2002 Abnormal Psychology, and MATH2001 Statistics I or RSCH2050 Workshop in Acquiring Social Research Skills)
6. Cumulative grade point average of 3.0 or higher
7. Personal interview

This program is currently offered at the Providence Campus. Please see the Admissions Requirements section of the catalog for more information.

Psychology

A four-year program leading to the bachelor of science degree

Major Courses

PSYC1001	Introductory Psychology	3
