

# University Explorations Program

The University Explorations Program allows students who want to explore the educational paths that Johnson & Wales offers to pursue a program of general studies as well as introductory courses in areas of interest during their first two semesters. With the help of a faculty adviser, students choose a major by the end of the first year, in any of the colleges at Johnson & Wales. Students who begin their studies in the University Explorations Program may be eligible to earn a bachelor's degree at the end of four years of study.

## University Explorations Program

In collaboration with academic colleges across all JWU campuses, JWU Global Study Abroad programs offer a variety of international, domestic, and digital options for major, minor, free electives, experiential learning, and transferable courses. There are many affordable options for students during a semester, winter session, spring and/or summer breaks. Faculty-led, exchange, affiliate, and direct-enroll programs range in duration from one week to a full semester or full year. Financial aid may be applied, and some partners offer external scholarships. Premiere programs do not qualify for JWU scholarships or grants; however federal aid is available. Visit the study abroad website for information, program descriptions and online applications. Where will you go? Wherever you decide, make the best of your educational journey!
