

Foundational Operations & Supply Chain Management - Micro-Certificate

This undergraduate-level micro-certificate program is designed to prepare students for entry-level work within operations and supply chain management in a broad range of industries. Students learn the basics of operations and supply chain management, as well as strategic management theory and skills and contemporary issues affecting operations and supply chain management (such as the COVID-19 pandemic).

Required documentation of prior knowledge foundational Excel skills or the prerequisite course FIT1040 Spreadsheet Design for Business Solutions are required to enroll in this program.

NOTE: Students who enroll in this certificate program are ineligible for financial aid. Contact Student Financial Services for options.
