The Dietetics and Applied Nutrition bachelor of science degree program is an Accreditation Council for Education in Nutrition and Dietetics (ACEND) accredited Didactic Program in Dietetics (DPD). This program prepares students for entry into a variety of positions in the fields of clinical, community, food service and health promotion, often as a Registered Dietitian/Nutritionist (RD/RDN).

The program prepares students to be able to translate the scientific literature when problem solving around food production, nutritional counseling on healthy eating practices, and managing diverse populations. This is done through a combination of traditional academic means, as well as with Johnson & Wales’ unique culinary nutrition, experience-based cooking labs. Students develop nutrition care plans and learn nutritional diagnostic skills, as well as refine sensory evaluation techniques.

Graduates of the Dietetics and Applied Nutrition program are prepared to work in settings such as hospitals, long-term care facilities and health clinics, as well as in nontraditional industries such as food product research and development, school food service, sports nutrition with collegiate and professional teams, recipe testing, food writing and the private chef industry.

Following the completion of the bachelor's degree program and the receipt of a DPD verification statement, students are qualified to apply to a supervised dietetic internship program and then sit for the national exam to become a registered dietitian (RD).

Upon completion of the program, graduates are expected to:

- Integrate scientific information and research into scientific and evidenced based practice.
- Demonstrate the beliefs, values, attitudes and behaviors for a professional level of practice.
- Perform customer services including the development and delivery of information, products and services to individuals, groups and populations.
- Apply the strategic principles of management and systems in the provision of services to individuals and organizations.

The Dietetics and Applied Nutrition degree is accredited by

The Accreditation Council for Education in Nutrition (ACEND) of the Academy of Nutrition and Dietetics

120 South Riverside Plaza, Suite 2000
Chicago, IL 60606-6995
312-899-0040, ext. 5400

eatright.org/acend

ACEND provides standards of education meeting required dietetics coursework leading to a bachelor’s degree. Such a program is called a Didactic Program in Dietetics (DPD). The Dietetics and Applied Nutrition degree program meets those standards.

Visit Courses by Subject Code for a listing of all campus courses.

*HUM courses are not offered in North Miami or Online.

*BIO courses are not offered in North Miami, Charlotte or Online.

*CAD courses are not offered Online.

*CHM courses are not offered in North Miami or Online.

*PHY courses are not offered in Charlotte.

**ANTH courses are not offered in North Miami or Charlotte.

NOTE: Students must pass MATH0010 Basic Mathematics or have equivalent placement scores to enroll in required math course(s).

Students who graduate with a bachelor's degree must leave Johnson & Wales University with effective writing skills. These writing skills will be assessed at the completion of ENG1021 Advanced Composition and Communication.

In collaboration with academic colleges across all JWU campuses, JWU Study Abroad programs offer a variety of options for major, minor, Arts & Science, and elective credit at many price points for students during the academic year and summer. Financial aid is applicable and scholarships are available. Visit the study abroad website for information, program descriptions and online applications.
