

Food Industry Compliance Management - B.S.

The Food Industry Compliance Management bachelor's degree program provides a unique combination of food service, scientific, operational and management skills. The focus is on current commercial and noncommercial food safety and quality assurance compliance issues and solutions. The program also develops proficiency in developing HACCP systems and allergen awareness programs to ensure operational standards in compliance with local, state and federal codes and statutes. Other areas of study include public health, food sustainability, purchasing strategies and logistics, organizational behavior, business management, critical thinking and leadership to prepare students for a career in food safety compliance and quality assurance management. The food and beverage industry is the largest U.S. employer besides the government. Admission to the program requires passing a national food safety manager exam that is recognized by the Conference for Food Protection.

Upon completion of the program, graduates are expected to:

- Demonstrate a commitment to remaining current in the profession by obtaining and maintaining industry recognized certifications.
- Effectively communicate food compliance standard practices to diverse audiences.
- Create operational policies and procedures that will advance a food safety compliance culture.
- Apply the major concepts and compliance practices to a variety of food production operations.
- Analyze and interpret insights gained from decision-support tools and relevant sources to solve problems and improve organizational performance within the food service industry.
