Services

The Academic Success Center offers a variety of services that can be accessed on both the Harborside and Downcity campuses. Below is a description of our services:

**Tutoring Services**

One-on-one tutoring is offered for many core curriculum courses. From accounting to writing assistance, students can select to meet with a professional or peer tutor to bolster their academic success. Tutoring services are also available online via Smarthinking.

**Workshops**

Workshops covering time management, study strategies, writing research papers and more are offered to support students throughout the year. A list of workshops can be found on the Academic Success Center workshop website.

**Peer-Assisted Study Sessions (PASS)**

For selected core curriculum courses, students can select a course section associated with the Peer-Assisted Study Session (PASS) program. These designated courses have special review sessions available for students who wish to study with peers from their course section. PASS is a great way to engage in deeper learning with selected undergraduate course material and meet other students enrolled in the same course section.

PASS sessions are facilitated by a peer who has successfully completed the course and who serves as a resource to those currently enrolled in the course. To participate in PASS, enroll in a course section with a PASS facilitator assigned to it. To learn more about courses associated with the PASS program, visit the PASS website.
