

Tutoring Services for Online Students

The College of Professional Studies (CPS) provides tutoring support geared specifically to students enrolled in the college's courses. Support is provided via phone, web conferencing and email.

CPS Writing Support: Students receive support for completing research and writing assignments, with a focus on developing the writing skills that are important to employers.

CPS Quantitative Skills Support: Students receive support for math, accounting, finance and Excel courses.

Students also have access to Smarthinking, an online tutoring support service available 24 hours, seven days a week. Smarthinking offers live and virtual support in many subject areas.
