

Class Absence

Health Services does not provide routine sick notes to students due to brief absences from class because of illness, injury or fatigue. Students are strongly encouraged to discuss absences directly with their faculty members and take personal responsibility for class attendance. In the event of a communicable, contagious (other than a common cold, flu, etc.), or another serious documented health condition, it will be at the discretion of Health Services to provide the student with documentation of their visit to Health Services via the secure messenger system. The student may then share this document with their faculty members if they choose to do so.
